100 Cabinet

Tech's Catalog Number 100 Locking Cabinet is designed to professionally organize and store all materials required to install proper tire repairs. The cabinet has been updated with a longer repair tool organizer inside the door. Now the **TRT104** Uni-Seal measure tool, **269** carbide cutter for 249W with **S1043** quick change adaptor and **S893** soft wire texture brush with **S1046** quick change adaptor all have a dedicated place in your inventory.

NOTE: All products sold separately. Products shown include:
